

# INLUBE GEAR OILS

## EXTREME PRESSURE FORTIFIED GEAR OILS

### Description

Inlube Industrial Oils are premium quality extreme pressure industrial gear lubricants designed for use in gears and bearings operating under severe service, heavily loaded, and/or shock conditions. They are recommended for use in all types of enclosed industrial gear drives, bearings, chains, and slides requiring extreme pressure gear oils with excellent antifoam and water separation characteristics.

### Performance Requirements

Inlube Industrial Oils satisfy all major industrial gear manufactures' requirements, including AGMA 250.04, US Steel 224, and MIL-2105 specifications for extreme pressure gear lubricants. In addition, they satisfy Cincinnati Milacron P-76, P-77, P-74, P-59, and P-35 requirements.

### Health & Safety

See the most recent MSDS which is available directly from Precision Fluids, your local salesman, or authorized distributor. Precision Fluids uses only raw materials not listed as carcinogenic by IRAC.
